

ROCKWELL

ABOUT US

Rockwell, established since 2001, is a leading industrial product distributor in India. At Rockwell, we are focused on delivering world class products to our valued customers through our association with the leading and reputed engineering conglomerates across the globe. Today Rockwell is a leading supplier of Industrial Gearboxes, Geared Motors, Fluid Couplings, Rigid Couplings, Water Pumps, Slurry Pumps, Submersible Slurry Pumps & Hydraulic Hose Assemblies.

PREMIUM CARE SERVICES

Premium Care, Bhubaneswar was established in 2019 in association with Premium Transmission, having extensive design & manufacturing capabilities, to provide a one stop solution for overhauling & reconditioning of any make of Gearboxes, Geared Motors & Fluid Couplings.

We have state of the art facilities along with the technological know-how for overhauling and reconditioning of gearboxes, geared motors and fluid couplings. Our well-trained, highly experienced & committed service engineers having a thorough knowledge of the standards and specifications with the right expertise of tools to address every aspect of refurbishment right from diagnostic work to the final adjustments. With the correct knowledge of reinstallation of components, we have proven our experience of critical application gearbox, geared motor & fluid coupling refurbishment, which allows us to repair or do reverse engineering and remanufacture the components for reuse.

OUR OFFERINGS

- Drop in & Retrofit of any make
- Overhauling & Reconditioning of any make
- Spares Development through Reverse Engineering
- Casing Bore Repairing
- Onsite Reverse Engineering using 3D Scanner
- Comprehensive Health Check Up
- Onsite Repair & Maintenance
- Installation & Commissioning

WHY CHOOSE US?

- Well equipped facility
- Experienced & Trained Service Engineers
- Product pick up & Drop Facility
- Quick Turnaround Time
- Competitive Price
- End to End Solution
- Reverse Engineering Facility
- Casing Repairing Facility

SERVICES

Rockwell offers widest range of abrasion and corrosion resistant slurry pumps in horizontal, vertical & submersible design with high quality wear parts in hard metal (high chrome alloy having hardness 600 - 650 BHN) & elastomer construction sourced from reputed & reliable suppliers across the globe suitable for challenging applications such as mining & mineral processing, coal preparation, metallurgy, thermal power, fuel gas desulfurization, dredging etc.

Rockwell also offers repairing & overhauling of Slurry Pumps of reputed OEMs with parts interchangeable with the existing models at competitive pricing with fitment & performance guarantee.

OUR OFFERINGS

Drop-in Replacement of Slurry Pumps of reputed OEMs

Repairing & Overhauling of Slurry Pumps of reputed OEMs

Supply of Parts interchangeable with reputed OEMs

MANUFACTURING

The journey of Rockwell Hydraulics started in 2021 with setting up a state-of-the-art hose assembly facility in Bhubaneswar with machines imported from UNIFLEX, Germany, a leading supplier of high-quality hose assembly machines across the world. As an Authorized Channel Partner of Gates, a leading and world's most advanced manufacturer of Hydraulic Hoses, we bring you high quality hose assemblies known for their durability, reliability and performance.

At Rockwell Hydraulics, we understand the critical role hydraulic system play in various industries such as mining, metal, cement, construction, transportation etc. That's why we partner with GATES, a global leader in fluid power solutions to provide our customers with innovative hose assemblies engineered to withstand the toughest conditions & deliver optimal performance under pressure.

WHY CHOOSE US?

Well Equipped Facility

Highly Skilled Technicians
